**KOOLTRAK**
TEMPERATURE LOGGERS

KOOLTRAK™ TEMPERATURE LOGGERS

—

The heart of the **KOOLTRAK™** system is the **KOOLTRAK™** temperature logger. In a waterproof stainless steel can hardly bigger than a dime, contains a complete recording system with microcomputer, memory, communications circuitry, temperature sensor, clock, and lithium battery power supply. The wide temperature range, long recording time and 10 year life make this amazing product the first choice for compact, low cost temperature recording.

Temperature range	-40°F to +185°F (-40°C to +85°C)
Resolution	0.5C
Accuracy	±1°C (-40°C to +70°C) / ±2°C (-20°C to +85°C)
Number of samples	2048 (memory size)
Sample period	1 to 255 minutes
Longest recording period	1 year
Battery life	10 year
Dimensions	17mm x 6mm (0.7"x0.25")

Specifications are: Part Number: 214002

KOOLTRAK™ Temperature loggers can be used as stand-alone loggers in packages, secondary containers and pallets to monitor temperature inside cargo trucks and shipping containers. With a recording temperature range of - 40F to +185 F they cover most of the food storage and transport requirements. Comprehensive, user friendly software runs on pc and laptops, and supplies ready-made solutions to most problems. Temperature data reports can be handled locally, across a network or over the internet.

The logger can be read with a *PC,* a *Laptop*, using the **KOOLTRAK™** *Interface cable and software*. To collect data "touch" the cable to the logger. After a few seconds an audible and visual message confirms the data transfer.

An **"intelligent"** program guides the user in setting up the system and automates many functions. Collected data is organized in an integrated relational database, where reports and graphs can be produced quickly. The software is easy to install and use and operates with Microsoft Windows 98, Windows 2000, Windows NT, XP and Windows 7.

If you think this could be of your interest, please give us a call or contact us via email and we will extend a special introductory offer for the use of the **KOOLTRAK™** system. *Please scan with your phone the QR code below to get all out contact information*.
